me: http://www.thetechherald.com/article.php/201106/6785/Report-HBGary-used-as-an-object-lesson-by-Anonymous
me: be sure to see Bloomberg piece when it appears
me: we have destroyed HBGary
me: we'd found an e-mail among those seized
me: from exec Gregg
me: saying they should position Aaron Barr as a "hero to the public" for helping to catch Anon
me: Bloomberg saw text of it and asked a certain Karen Burke if she knew anything about it
me: she said no
me: the e-mail was to Karen Burke and she responded
me: and we've provided the whole thread to Bloomberg
me: reporter actually said, "wow."
BushwickBK.com: oh lemme see
BushwickBK.com: When it comes to the ten “most senior people”, they are actually network administrators.
BushwickBK.com: lawl
me: dude, a lot of people will be personally going down
me: shareholder lawsuits, Aaron Barr to be sued
me: etc
BushwickBK.com: I don't know who he is yet, reading
BushwickBK.com: oh shit
BushwickBK.com: they actually did something substantial
me: yep
BushwickBK.com: this is more than defacement
BushwickBK.com: fuck yes
me: no shit
me: dude
me: we destroyed them
me: and I caught some people in lies
BushwickBK.com: I have to say, that's been the main point of boredom with anon
me: which the press now knows
BushwickBK.com: but this is serious shit
me: dude, we took down Egyptian gov't websites just the other day
me: that's why NYT quoted me
me: and Gregg Housh
me: Anon has done substantial shit before

me: during Chanology, for instance
BushwickBK.com: yes, they have taken down sites
BushwickBK.com: and that's fun
BushwickBK.com: but like I said before, after a whle it gets boring
me: no, more than that
BushwickBK.com: for spectators
me: you need to read up, man
BushwickBK.com: I guess I do
me: read the Wikipedia page
BushwickBK.com: because this is my impression
BushwickBK.com: during the wikileaks attacks, it was nothing more than taking down corporate biz cards
BushwickBK.com: but since tunisia I guess it's gotten more robust
me: it was more than that during wikileaks
me: we worked to ensure more coverage
BushwickBK.com: ok, wait, questions
me: and ran operations to promote cables
BushwickBK.com: I read the FT piece and the one you linked
me: k
BushwickBK.com: this guy is a security consultant
me: not anymore
BushwickBK.com: he claims he did this to expose flaws for any org
BushwickBK.com: but you're sure he did it at someone's behest?
BushwickBK.com: I guess that's what I'm confused about
me: yes
me: I spoke to him
me: last night
me: recorded it
me: he and others lied
me: if here were doing so to help us
me: he'd have provided us the info first
me: instead of going to FT with what he thought was info about our leadership
BushwickBK.com: yes, obviously
me: and meeting with the feds
me: when I asked him about that
me: he paused
me: asked, "Well, who would I have given it to?"
BushwickBK.com: he's been fired?
me: he was in our IRC for months
me: and thought he knew who are leaders were
me: not yet
me: but Penny is mad at him

BushwickBK.com: he's a partner, so they mgiht force him out?
me: Penny is prez of HBGary, which owns 15 percent of HBGary Federal
me: oh man
me: I can't ppredict the exact nature
BushwickBK.com: or sue him even
BushwickBK.com: fun
BushwickBK.com: ok so
BushwickBK.com: the bloomberg piece I hope will make what's happened clearer?
BushwickBK.com: cuz I shouldn't hve ha to ask you those questions
me: yes
me: a lot clearer
BushwickBK.com: the coverage is kind of gappy
BushwickBK.com: cool
me: understandable
me: happened fast
me: FT article appeared Saturday
me: Anon struck Sunday
BushwickBK.com: hot
BushwickBK.com: http://www.wired.com/dangerroom/2011/02/secret-tools-force-net/
BushwickBK.com: too bad the govt has it and selecti vely uses it
BushwickBK.com: possible to have these kinds of tools in a distributed netwrok, I'm sure
BushwickBK.com: blast open the internet wherever some dictator fuck shuts it down
BushwickBK.com: when are you guys punishing that lamo rat
me: Aaron?
me: we're hoping to get back moving on other things
me: he'd over and done
me: after Bloomberg piece comes out
BushwickBK.com: Lamo
me: already discussing Iran
me: speaking of which
me: put out the word that those who'd like to help Iran can do so soon
me: if they talk to us
me: quietly
BushwickBK.com: I only have public ways for putting word out
me: k
me: don't then
me: yet
me: http://www.msnbc.msn.com/id/41465455/ns/technology_and_science-security/
BushwickBK.com: nice, I';ll runt his ont he page tonight
